

Special Certifications User Field Entries

To properly use the automation, EVERY teacher must have something entered in the **Certification** logging field unless you want them to be flagged Out-of-Field. There are a few special scenarios you may want to account for listed below:

VPK Teacher

For 5100580 VPK School Year Program and 5100590 VPK Summer Program we have the following options available to meet the certification requirements:

- **Subject:** 1041 PreKindergarten/Primary Education PK-3
 - **Level:** H
- **Subject:** 1042 Preschool Education (Birth – Age 4)
 - **Level:** L
- **Subject:** 1065 PreKindergarten Disabilities
 - **Level:** E
- **Subject:** 940 District Verified VPK Teacher
 - **Level:** H

Do not put a Scope of X on these ones, it will cause all courses the teacher teaches to be marked 'V'.

*Note: **940 District Verified VPK Teacher** is a code we setup for districts to mark a VPK teacher for the certification process to send as V for these courses that does not have one of the other certifications.*

If a teacher is assigned these courses and has one of these as an active certification record they would automatically be set to "V" for the Cert/Licensure Status on the sections.

There are several statutes that dictate the requirements districts can use for VPK teachers. We have designed the verification process with maximum flexibility in mind, but you should be aware of those statutes: 1002.63, 1002.55 3(c), and 1002.61.

Dual Enrollment Academic College Teacher (Cert Number 0000999999)

Entering the **Florida Educator Certification Number** as **0000999999** will result in the certification status being set to "N". You do not have to enter any certification log field records for these teachers.

District Determine Sufficient Subject Area Expertise

Instructional staff member holding a valid Florida Educator's Certificate and teaching in a field in which the teacher has demonstrated sufficient subject area expertise, as per s.

1012.42, F. S. and Rule 6A-1.0503,

FAC should have entry like the following:

- **Subject Area** - Subject area the teacher has demonstrated sufficient expertise
- **Level** - As applicable with the subject
- **Type** - Regular
- **Issue & Expiration Date** - Time period HR has issued the district certification for.
- **Scope** - [E] Exam

District Issued CTE Certifications (Cert Number 7777777777)

The CCD site Crosswalk of Educator Certifications and the Course Code Directory (Excel) lists two tabs:

- **Career-Technical** - Career/technical certifications that can be issued by a district based on job experience. This is based more on business and industry employment standards and certifications.
 - For these level code is G
- **District Issued** - Career/technical certifications that can be issued by a district based on district-issued employment certificate. This may require things such as postsecondary coursework and academic training.
 - For these the level code is 7

Many codes are in both the district-issued (instructional code 7) and career/technical (instructional code G) certifications.

In the FOCUS logging field you would enter:

- **Subject Area** - Subject area the teacher has been issued
- **Level** - see note above

- **Type** - Temporary
- **Issue & Expiration Date** - Time period HR has issued the district certification for.
- **Scope** - [T] District Certified CTE

Long Term Substitutes

For long term subs you will enter:

- **Subject Area** - 0000 SUBSTITUTE
- **Level** - G
- **Type** - Temporary
- **Issue & Expiration Date** - The dates on the long term sub entry should be determined by your HR department.
- **Scope** - [Z] scope

This entry will automatically mark them as a 'B – Substitute' in their License Qualification Status for all their sections.
